DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Species VII, Figure 29, in the reply filed on 02/07/2007 is acknowledged.
2. Claim 29 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 02/07/2007.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 20-28 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Regarding claim 20, the specification does not have support for the newly added limitation "a pattern of sampling points in the grid imaging mode and a pattern of sampling points in the diagonal grid imaging mode are different from each other in that directions of the

shortest distances between the sampling points in respective modes are different” as amended in amendment filed on 6/23/2009.

Claims 21-28 are rejected as being dependent from claim 20.

Allowable Subject Matter

5. Claim 31 is allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 31, see Examiner’s statement of reasons for the indication of allowable subject matter as indicated in Paper mailed on 05/03/2007.
